## Freeholder Tours Children's Medical Daycare

MERCER COUNTY, NJ – Mercer County Freeholder Pasquale “Pat” Colavita, Jr. visited the daycare and read to the children as part of the curriculum topic “My Neighborhood”. “The children very much enjoyed Freeholder Colavita’s animated and interactive approach to story-telling. He made the children feel like they were a part of the story”, said Ana Smith, the center’s certified group teacher.

Freeholder Colavita said that it was important for children to be able to access proper medical care, “especially when they need it most”.

Mercer County Children's Medical Daycare was formed to assist New Jersey's child welfare reform effort and provide children with special medical needs, ages birth to 4 years, with a continuum of medical care that is prescribed by their doctors in a daycare environment. The program opened in July 2003 as the State's largest pediatric medical daycare program and has served over 170 children from the Trenton community.
